

3P Wall Tank 750 Liter

The 3P Wall Tank is a rainwater tank for the outskirt area.
 It has a capacity of 750 Liter.
 Designed to fit close onto the wall.
 Supplied with metal safety bracket for extra security. This bracket is mounted on the wall and prevents the tank from tilting.
 The inlet of the rainwater is made through a 3P downpipe filter. We recommend the 3P Filter Collector with its connection DN 70 or DN 50.
 As the tank does not dispose of an opening for the inlet of the water, it can be positioned anywhere.

How it works:

Rainwater is being filtered through a downpipe filter and directed to the 3P Wall Tank. The water inside the tank can be stored there for several weeks. The wall of the tank is UV-resistant. The water can be removed through the middle connection or through one of the lateral screw thread 3/4" internal screw thread.

1. 3/4" internal screw thread connection with plug.
2. 3/4" internal screw thread connection for check valve or removal set.
3. The inlet of the rainwater can be determined individually. It should be positioned on the same height as the filter collector thus having an overflow for the tank at the same time.

Technical Data:

Dimensions: 80 x 60 x 179 cm
 Capacity: 750 Liter
 Water connection front side 3/4":
 Height approx. 30 cm
 2 x Water connection 3/4" lateral:
 Height approx. 6 cm
 Closed with plugs
 On the upper side there is an opening Ø100 mm for mounting the wall fastening and for cleaning.
 Material tank: Polyethylene
 Material wall fastening: stainless steel
 Weight: 35 kg

Included in delivery:
 Wall fastening

Packing unit:

Pallet: 2 pcs.

EAN:

4018712001143 Art.-No. 9000510 granite
 4018712001129 Art.-No. 9000520 sand
 4018712001167 Art.-No. 9000530 green
 4018712001150 Art.-No. 9000540 black

Example 1:

3P Wall tank green
 Art.-No. 9000530

Example 2:

3P Wall tank granite
 Art.-No. 9000510

Example 3:

Battery circuit possible to get a higher storage capacity.

Accessory 1:

3P Removal Set with transparent PVC-hose
 Art.-Nr. 9000278
 2m PVC-hose with check valve and connection piece with 3/4" external screw thread and fixation clip.

Accessory 2:

3P Connection Set 3/4"
 Art.-No. 9000326
 for the connection of two tanks with each other. Connection pieces with 3/4" external screw thread and flat sealing. 25 cm connection tube Ø 25 mm.

Accessory 3:

3P Filter Collector brown or grey
 Art.-No. 2000810 and 2000820
 Filters and collects rainwater. Ideal for filling aboveground rainwater butts. Suits with downpipes Ø 65 - 110 mm.
